WALKING PROGRAM

8-WEEK BRISK WALKING PLAN

YOUR WALKING JOURNEY STARTS HERE

Walking is your foundation cardio option. Aim for brisk walking on most days. You should be able to talk, but not sing. Warm up for 5 minutes at an easy pace and cool down for 5 minutes at the end.

WEEK	FREQUENCY	DURATION	FOCUS
Week 1	5 days/week	30 min	Comfortable brisk pace
Week 2	5 days/week	35 min	Steady brisk pace
Week 3	5 days/week	40 min	Brisk pace, stronger arm swing
Week 4	5 days/week	45 min	Brisk pace with posture focus
Week 5	5 days/week	45–50 min	Brisk pace, slightly faster finish
Week 6	5 days/week	50 min	Strong brisk pace
Week 7	5 days/week	55 min	Brisk pace, maintain rhythm
Week 8	5 days/week	60 min	Strong brisk pace / long walk goal

IF YOU HAVE A FITNESS WATCH

- Aim to gradually build daily steps.
- Start around 7,000–8,000 steps and build toward 10,000–12,000 steps.
- A brisk pace usually means your heart rate rises but conversation is still possible.
- Use the watch to keep yourself honest, not obsessed.

IF YOU DO NOT HAVE A WATCH

- Use the talk test: you can talk, but you should not feel too comfortable.
- Walk with purpose, good posture, and a natural arm swing.
- Use time, not distance, as your guide.
- Stay consistent and aim to increase pace or time as the weeks progress.

KEY RULES

- Walk in supportive shoes.
- Miss one day? Continue with the next planned walk.
- Optional: one longer relaxed walk on the weekend.
- Consistency matters more than perfection.

RUNNING PROGRAM

WEEKS 1-4 • 4 RUNS PER WEEK

YOUR RUNNING JOURNEY STARTS HERE

The goal is to build toward running 5 km without stopping. Every session starts with a 5-minute walk warm-up and ends with a 5-minute cool-down walk. You can repeat a week if needed – progress at your own pace.

WEEK	RUN 1	RUN 2	RUN 3	RUN 4
Week 1	1 min run + 2 min walk x 8	1 min run + 2 min walk x 8	90 sec run + 90 sec walk x 8	20 min alternating 1 min run / 2 min walk
Week 2	90 sec run + 90 sec walk x 8	2 min run + 2 min walk x 6	2 min run + 90 sec walk x 6	25 min alternating 2 min run / 2 min walk
Week 3	3 min run + 2 min walk x 5	3 min run + 90 sec walk x 5	4 min run + 2 min walk x 4	25 min alternating 3 min run / 90 sec walk
Week 4	5 min run + 2 min walk x 4	6 min run + 90 sec walk x 4	8 min run + 2 min walk x 3	30 min alternating 5 min run / 2 min walk

KEY RULES

- Keep the effort conversational. You should be able to talk, not gasp.
- Use supportive running shoes.
- Do the session as planned instead of chasing speed.
- Consistency matters more than perfection.

RUNNING PROGRAM

**STRONGER
FITTER
HAPPIER
YOU**

WEEKS 5-8 • 4 RUNS PER WEEK

YOUR RUNNING JOURNEY CONTINUES HERE

The goal is to progress toward a continuous 5 km run. Follow the plan, build gradually and listen to your body. If a week feels too challenging, repeat it before moving on. Consistency is more important than speed.

WEEK	RUN 1	RUN 2	RUN 3	RUN 4
Week 5	10 min run + 2 min walk + 10 min run	12 min run + 90 sec walk + 12 min run	15 min run + 2 min walk + 10 min run	20 min continuous run
Week 6	18 min continuous run	20 min continuous run	22 min continuous run	25 min continuous run
Week 7	25 min continuous run	28 min continuous run	30 min continuous run	3.5-4 km continuous run
Week 8	30 min continuous run	35 min continuous run	4-4.5 km continuous run	5 km continuous run

WEEKEND LONG SESSION

- Use one of your weekly runs as a longer session.
- Keep it controlled and comfortable.
- It helps build endurance and confidence.
- Time or distance both work — focus on steady progress.

PACE GUIDE

- You should be working, but still in control.
- You can talk in short sentences, but not sing.
- Focus on a steady, comfortable pace.
- It's not about speed — it's about consistent progress.

WHAT IF IT FEELS TOO HARD?

- Repeat the week instead of quitting.
- Progress at your own pace.
- Some days will feel tougher — that's normal.
- Keep showing up. Consistency builds results.
