

TRAINING ROADMAP

How to use the exercise plans

1. EVERYONE USES THESE

- Start Here
- Eat Like Tammy
- Journal

2. CHOOSE ONE STRENGTH TRACK

- Basic Gym Program OR
- Home Dumbbell Program
- Do not follow both strength programs together.

3. ADD CARDIO SENSIBLY

- Walking & Running Program = optional cardio track
- Beginners: 2 sessions / week is enough
- Fitter women: 3-4 sessions / week is fine

KEY RULES

- Choose ONE strength track: gym OR home.
- Do not place hard running on the day after a very hard leg session if you are sore.
- Walking can replace an easy cardio day.
- At least 1 proper rest / recovery day each week is a good idea.

Tue Easy walk or rest

Sun Longer walk / run or rest

Tue Walk / Run Session

Sun Strength Day 4 or rest

Wed Strength Day 2

Wed Strength Day 2
