HOW PROGRESSION WORKS

A little more, step by step

1

START WHERE YOU ARE

Walking is the foundation. If running is not comfortable yet, use a brisk walk.

2

FOLLOW THE PLAN

Each week builds only slightly on the previous week.

3

INCREASE GRADUALLY

A few more running minutes or a little less walking is enough.

4

LISTEN TO YOUR BODY

Repeat a week when needed. There is no prize for rushing.

PROGRESSION GUIDE

Weeks 1-2	Mostly walking, short jog/brisk intervals
Weeks 3-4	More running, less walking
Weeks 5-6	Longer running intervals
Weeks 7-8	Build toward continuous easy running

WALK-ONLY OPTION

Replace every run interval with a brisk/power walk. Keep the same timings.

PROGRAM GUIDELINES

WEAR GOOD SHOES

Use comfortable, supportive walking or running shoes.

STAY HYDRATED

Drink water before and after your session.

WARM UP & COOL DOWN

Use 5 easy minutes at the start and end.

CHOOSE A SAFE ROUTE

Flat, well-lit areas are best. Treadmill is also fine.

LISTEN TO YOUR BODY

Slow down or take an extra rest day if needed.

KEEP THE PACE EASY

You should usually be able to speak in short sentences.

BE CONSISTENT

Four sessions is the target. Three still counts as a good week.

ADAPT WHEN NEEDED

Repeat a week or reduce the run intervals if your body needs it.

PROGRESS OVER PERFECTION. EVERY STEP COUNTS.
